

STAIR SYSTEMS
IN WOOD & IRON

Universal Stair Parts, Inc.
919 Old Nelson Rd.
Ball Ground, GA 30107

PH: 678-454-1330
FAX: 678-454-1334

Welcome to the world of Universal Stair Parts, Inc. In the following pages we invite you to explore the most complete classic collection of quality stair products to be found anywhere.

From our home in Ball Ground, GA we manufacture and distribute quality wood and iron stair products and a large selection of exterior porch balustrades. Here you will find a large inventory of stock stair products and one of the most complete custom millwork manufacturing facilities in the industry.

Working closely with you, our experienced craftsmen respond to virtually any specialized request from manufacturing in a wide variety of exotic wood species to customized, customer specific profiles.

Since 1995 we have built the strongest reputation in the business for customer service quality serving the Pro Dealer and Stair building industry. Find out why. Call us or, better yet, come visit with us.

Either way you will find a friendly and knowledgeable staff ready to serve your every need. Once you've experienced our products and our dedication to serving you, you'll want to turn to Universal for all of your stair products needs. After all, we're Universal—your stairway to quality.

POST TO POST SYSTEM

OVER THE POST SYSTEM

GLOSSARY OF STAIR TERMS

- BALUSTER** - The vertical post which supports the railing of the staircase. The term "Balustrade" refers to the baluster and rail system.
- COVE MOULDING** - Decorative strip which when attached to the underside of the tread nosing, covers the joint between the tread and riser.
- FILLET** - Strip which fills the plow between balusters on plowed handrail and shoe rail. Used with square top balusters.
- FITTING** - Used to form a smooth transition when the handrail changes height or makes a turn at a landing or a balcony.
- HANDRAIL** - The horizontal or rake member of a balustrade system. It sits on top of the balusters and is supported by newel posts.
- NEWEL** - Major support post for the balustrade system. Larger and heavier than the balusters, newels are located at the bottom and top of a staircase and at turns and critical support areas of balcony rails.
- NOSING** - The portion of a tread or landing tread which protrudes beyond the face of the riser.
- RISER** - The vertical components of a stair which support the treads.
- SHOE RAIL** - A piece running along the floor which is plowed for the insertion of balusters.
- STARTING STEP** - The first tread and riser at the bottom of the staircase.
- TREAD** - The horizontal portion of the staircase that is walked upon.

Wood Species

Universal Stair Parts specializes in a variety of products in many different wood species. Contact us for product availability and lead times on these and other exotic species of wood.

Yellow Pine

Handrail Profiles

CONTEMPORARY AND WALL RAIL

Our Decorative Metal collection offers an extensive assortment of popular styles. Our balusters are constructed from “mild” steel, making them very durable and much stronger than wrought iron versions. Each and every baluster is hand made, which means no two are exactly alike. The slight variations in the details add exceptional character to any stairway. The finishes on our iron products may vary and all components are for interior use only.

Handrail Fittings

Handrail fittings are designed to accommodate changes in direction and pitch along a handrail. When selecting fittings, simply match the second digit in the fitting with the corresponding second digit in the handrail profile.

STARTING FITTINGS

*Item numbers below correspond with a 6010 Colonial Style handrail. For all other handrail profiles, insert the second number of the handrail to the second digit of the corresponding fitting.
