“A COLLECTIVE FOCUSING ON THE STAIR INDUSTRY OF THE FUTURE”

The Stairbuilders and Manufacturers Association is an active network of stairbuilders, installers, stair part manufacturers, distributors, and dealers. Ancillary companies that provide services and/or products in support of the industry, as well as design and regulatory professionals are also members. Each member’s value contributes to the comprehensive expertise of the association.

The SMA is building the greatest resource of knowledge and tools contributing to the SUCCESS of our members and the stair industry.

The SMA Offers:

- Education
- Code Certification
- Stair Publications
- Robust Knowledge Base
- Industry Networking Opportunities

This benefits our members as well as the architect, builder, code official, interior designer, and homeowner alike.

6 EASY STEPS TO CREATE A STAIRCASE

STEP-BY-STEP GUIDE

Designing your dream staircase is now simpler and more enjoyable with **Coffman Stair Parts**. No matter your personal taste or the style of your home, we make it easy to transform your vision into a stunning reality. Follow our straightforward, step-by-step guide to craft a staircase that's not just a structure, but a centerpiece of your home.

Need assistance? Our expert stair professionals are always ready to offer their support. Feel free to reach out to us at (800) 810-9204, drop an email to sales@coffmanstairs.com, or explore more at www.coffmanstairs.com.

1. Pick Your Newel

In Over-The-Post stair designs, the handrail flows continuously over the newels and balusters, spanning the entire length of the stairway. This style allows for the incorporation of various decorative elements, enhancing the aesthetic appeal. Post-to-Post stairways are characterized by handrails that connect to the upper square block of the newel, creating a distinct, structured look.

OVER-THE-POST

POST-TO-POST

2. Pick Your Wood Species

Personalize your staircase with our exquisite selection of wood species, including Red Oak, White Oak, Poplar, Hard Maple, Mahogany, and Primed. For those seeking a unique flair, we also provide a broad array of custom wood species to align with your specific taste and style. From our standard offerings to your personalized selections, we are committed to creating a staircase that perfectly accentuates your home.

3. Pick Your Handrail Style

Choose the perfect handrail to complement your staircase from our wide selection, ranging from the classic design of the 6010 to the craftsman style of the 6840. Whatever your aesthetic, we have the style to match your vision. Once you've selected your ideal profile you can choose whether a plowed or unplowed option best suits your needs based on your baluster selection. Unplowed handrails offer a seamless integration with metal and round balusters, while plowed options are a flawless fit for square top balusters.

6010

6840

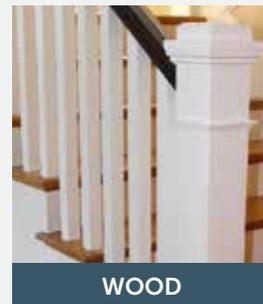

6700

4. Pick Your Infill

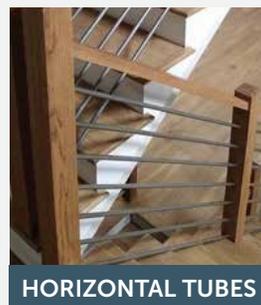

Select from a diverse array of infills to enhance your staircase, including options like iron balusters, wood balusters, horizontal tubes, or cables, each tailored to complement your design vision. Within the wood baluster choices, decide between the pin top or square top varieties. Pin top balusters are designed with elegantly rounded tops, fitting smoothly into unplowed handrails, whereas square top balusters feature a combination of turned and squared segments, suitable for plowed handrails accompanied by fillet. These selections allow you to craft a staircase that not only meets your aesthetic preferences but also reflects your unique style.

5. Pick Your Tread

Discover our extensive collection of treads, thoughtfully crafted to complement both your style and your home's interior. With almost limitless design possibilities, you're free to find the look that resonates most with you. Choose your favorite tread profile and combine it with your preferred Newel design to create a staircase that truly reflects your personal touch.

6. Pick Your Accessories

Elevate the beauty of your staircase with our diverse selection of decorative accessories. From elegant starting steps to intricate rosettes and stylish tread brackets, our offerings are designed to add those final, exquisite touches to your stairway. Browse through our collection to discover finely crafted options that will help you shape the perfect stairway, one that you and your family will admire for years to come.

WOOD SPECIES GUIDE

Coffman Stair Parts presents an extensive selection of both in-stock and custom wood species, allowing you to choose the perfect style from our diverse range. Our most popular options include Red Oak, White Oak, Poplar, Hard Maple, and Mahogany, alongside a variety of custom choices and Primed White options. Personalize your staircase by selecting your favorite species or combining different woods to add a unique touch to your home.

For a more interactive experience, explore our Stair Artist guide, now accessible via a QR code, to visualize your staircase design. This online feature brings your ideas to life, showcasing how different wood choices can enhance your space.

RAIL SERIES

Discover the versatility of Coffman Stair Parts handrails, designed to cater to your unique staircase design. Choose from plowed, non-plowed, and bending rail options to achieve the perfect look and functionality. It's important to match your handrail choice with your balusters; if you've opted for Square Top Balusters, ensure you select a corresponding Plowed Handrail for a seamless fit. Our handrails come in various styles including Finger Joint, Solid Cap, and Engineered options, each crafted to provide both aesthetic appeal and lasting durability.

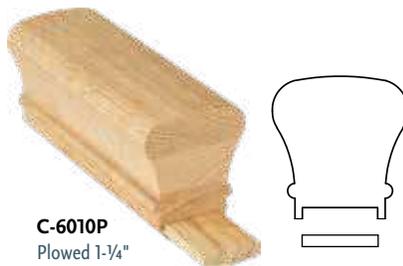

Note: Stocking Species and versions may vary per profile. FJ- Finger Joint, SC- Solid Cap, ENG- Engineered, SS- Solid Solid (No Joints).

WOOD BALUSTERS

Balusters are a key decorative element in a balustrade system, adding elegance and character to your staircase. Our collection of wood balusters offers a wide array of designs to perfectly suit your stairway's style. Explore options ranging from basic to intricately fluted, beaded, twisted, and octagonal designs, available in both round and square profiles. Our wood balusters are crafted in a variety of standard and custom wood species, ensuring you find the ideal match for your home. With the option to quote additional species, the possibilities for customization are nearly endless.

TREADS

Coffman Stair Parts treads are manufactured under highly controlled standards for beauty that will last a lifetime. We only carry solid, quality-made treads. Our Tread & Riser Caps are used with applications where carpeting would be placed along the center. These components allow for the look of quality hardwood on either side.

CUSTOMS PROGRAM

Combining Tradition and Innovation

ADVANCED MACHINERY

- 3/4/5-Axis CNC
- Moulders
- Lathes
- Custom Millwork Shop
- Pre-finishing

Key Advantages of CNC Routing

- ✓ Achieve Complex and Intricate Designs
- ✓ Increased Flexibility with Material and Application
- ✓ Precise and Consistent Historical Reproductions

CAPABILITIES

With the help of our CAD experts, create or reproduce designs to your exact specifications. We ensure accuracy and quality in the production of your custom components.

- Balusters
- Handrails
- Mouldings
- Box Newels
- Newels
- Fittings, and more

Fast Lead Times
(2-3 weeks for most products)

Unmatched Quality and Accuracy

Dedicated Weekly Deliveries
(available in select locations)

Specialty Building Products for Indoor and Outdoor Living

OUR LOCATIONS

DISTRIBUTION

Georgia

7950 Third Flag Pkwy | Austell, GA 30168

Maryland

86 York Street #2 | Taneytown, MD 21787

New Jersey

115 Fieldcrest Ave | Edison, NJ 08837

Texas

2603 Technology Drive | Plano, TX 75074

MANUFACTURING / CUSTOMS

New York

225 W Main St. | Little Falls, NY 13365
